## Prepare for It

To maximise the life of your coating, Dulux recommend the application of a powder coating primer (below table). It should be applied in accordance with Australian Standard AS 3715-2002 for architectural aluminium and alloys, or AS 4506-2005 for other metal substrates.

SUBSTRATE	PRIMER COAT
Steel	Dulux Zincshield®
Zinc Coated Steel	Dulux E-Prime™
Hot Dipped Galvanized Steel	Dulux E-Prime™
Aluminium (Severe Environments & Sharp Edges)	Dulux E-Prime™

## A Selection of Products

**DURALLOY® XT & FG** High durable polyester, an ideal choice for architectural residential fittings, such as aluminium windows, doors, balustrades and fences. It is equally suited to interior items and other metal substrates. In addition, **FG** is designed to provide a smooth film over porous substrates.

**PRECIOUS® Pearls** For a touch of class, Precious® Pearls are an ideal choice for architectural residential fittings, such as aluminium windows, doors, balustrades and fences. Precious® Pearls provide a classy alternative to anodised finishes.

**ARMOURSPRAY® AG** An anti graffiti powder coating that allows the easy removal of permanent markers and spray paint, ideal for items such as street furniture, public transport and playground equipment.

**ALPHATEC®** A collection of fun bright colours, ideal for items including playgrounds, electrical cabinets, interior and industrial design and all metal consumer products.

**SURREAL EFFECTS®** A collection of Mannex® Textures, Scylla® Ripples, Aztec® Hammer and Interior grade Sarouk® Matt Ripple effects, designed to cleverly hide surface defects on fabricated metals, whilst providing interesting tactile surfaces.

**ZINC SHIELD®** Zinc based epoxy primer formulated for powder coating applications over blasted steel. Dulux Zincshield® may be used with confidence for improved corrosion resistance and durability.

**E-PRIME®** An epoxy primer formulated to give additional protection for sharp edges. E-Prime™ can fill small surface imperfections and may be sanded. E-Prime™ provides a barrier coating for improved corrosion resistance; it is ideally suited to aluminium and zinc castings, hot dipped galvanized and other zinc coated and porous substrates.

# Dulux®

## POWDER COATINGS

# Keep it Fresh

The Dulux Powder Coatings Colour Selector is a helpful guide to choosing the most suitable products for your project.

Long term performance of your coating will be enhanced by specification of an appropriate method of preparation, combined with regular care and maintenance of your powder coated surface.

# Dulux®

## POWDER COATINGS

# The Natural Facts

- Contain no harmful volatile organic solvents.
- Free of heavy metal pigments such as lead, cadmium, arsenic & mercury.
- Proven low temperature curing technology.
- Produced with stringent Safety, Health & Environmental policies and standards.
- Developed with consideration of life cycle analysis, to guide our suppliers and the materials we use.
- Manufactured in facilities where significant energy and resources employed in production, are measured with aggressive reduction targets in place.
- Produced and used with minimal waste.

Consequently, Dulux Powder Coatings are a prime consideration for projects where air quality standards have been set, such as 4, 5 & 6 Green Star Rating Projects.

### customcolour™

More than 3000 colours from our Dulux Colour Atlas can be matched on a made to order basis, providing a complimentary range of powder coating options for surfaces coated in Dulux decorative paints.

Visit [dulux.com.au/specifier/colour/colour-atlas](http://dulux.com.au/specifier/colour/colour-atlas) and select the "show only powder coatings" box to view the full range of powder coatings colour options.

In addition, many other colour shades including Australian Standard, R.A.L and corporate colours can be matched in Dulux, CustomColour™.

Some limitations do apply such as batch size and technology.

For more information please contact **Dulux® Customer Service 13 2499**

### Specifying exactly the right colour

Some colours, whether powder, paints or furnishings may share the same colour name but be entirely different. This is especially true of other powder suppliers who use Dulux® colour names for their products, however the colours rarely match. When choosing colours, remember to specify both the Dulux® colour code and name.

The Duralloy® range incorporates a range of colours designed to harmonise with pre-coated steel products such as Colorbond®. Powder Coatings will never identically match these pre-coated steel products when new, or over time, due to the different coating technologies.

Every effort has been made to present these colours as accurately as possible and as close as modern processes allow. Colour appearance may vary according to light source. Where colour accuracy is vital, a powder coated panel should be requested to confirm your selection. **Dulux Customer Service on 13 2499**
