

GLOBAL 2020

Compact and Versatile Folding Arm Awning

The GLOBAL 2020 Folding Arm series offers customers an Awning which is compact in every sense of the word.

The Global 2020 awning offers a full range of arm sizes From 1600mm projection to the massive 4100mm arms, with intermediate arm sizes of 1850mm, 2100mm, 2350mm 2600mm, 2850mm, 3100mm and 3600mm to complete the full range. The width possibilities range from 2010mm to 12 metres.

The Global 2020 awning offers robust construction with All exposed parts powder-coated for lasting durability.

The standard colours offered on the Global 2020 Folding Arm Awning are Pearl White, Ivory and Grey - colours to contrast with a wide range of fabrics on the market.

An optional colour choice is also offered on the Global 2020 models. Your selection from the range of powder-coat colours offered by PPG, Dulux®, or Interpon® will ensure your colour requirements can easily and inexpensively be met. An additional charge is made for colours over and above the three standard colours we offer, but the end product will ensure your investment meets your ultimate needs.

The Global 2020 Folding Arm Awning is mounted from a powder coated 40mm x 40mm steel square bar adding strength and versatility to your awning. With an end profile of 200mm by 200mm it sits snugly against the wall giving an unobtrusive appearance to the awning.

Depicted above is the square bar with the arm brackets showing the spanner adjustable nature of the Pitch Adjustment system of the Global 2020 Awning. The pitch of the awning is set during the installation process and has a range between 5 and 60 degrees.

The above photograph shows the Global 2020 Folding Arm Awning partially extended, and we point-out the compact nature of the mounting system used with the Global 2020 awning. The high position of the roller tube adds to the compact style and appearance of this most attractive Folding Arm series of awnings.

Although the Global 2020 Folding Arm offers a wide range of arm sizes, many customers seek to maximize the amount of shade cover provided by their Folding Arm Awning, and the following guide will assist in achieving this goal. If the awning is up to 6 metres wide, an optional extended valance option is also available.

Maximum Shade Guide

Arm Size	Minimum width Required
1600mm	2010mm
1850mm	2260mm
2100mm	2510mm
2350mm	2760mm
2600mm	3000mm
2850mm	3260mm
3100mm	3510mm
3600mm	4000mm
4100mm	4500mm

Awnings over 6 metres wide should be motorized.
