

Crank Roller Café Blinds

by Coolabah Shades

Crank roller Café Blinds are an ideal solution to enclose your outside pergola area or a Café seating area. Using a roller tube and a crank gearbox, the blind is operated using the removable crank handle. The Crank roller blind is ideal for Café footpath seating areas where the blind can drop down from the veranda roof and clip down to fixings on the ground, then be retracted and leave the area clear when not in use

For more information please contact Coolabah Shades, 03 9078 4533, info@coolabahshades.com.au

Clear PVC Blinds no hoods with Link Panels

Simple operation and neatly rolled up when not in use, the crank roller café blind can be an ideal solution when a large drop to the ground is required. With a sturdy 7:1 ratio crank gearbox (or 11:1 ratio for larger blinds) the blind is unwound to the ground and clipped onto the anti-trip fixings, once attached the blind is retracted using the crank handle to tension the blind up

To retract the blind, simply release the tension, unclip from the ground fixings and wind the blind back up until it is conveniently rolled up under the Pergola, Alfresco or Veranda roof.

Key Features

- Easily installed to existing pergola, Alfresco or Veranda areas
- No side posts or rails required
- Weather Flap across the bottom to prevent rain driving in under the blind
- Link panels available to join blinds together
- Choice of PVC or Shademesh fabrics
- Economical
- The blind of choice for Café footpath seating areas

Shade Blinds no hoods

Available in Clear or Tint Achilles Premium 1mm Rollclear PVC or in a variety of colours in 94% or 99% shade mesh there is a blind to suit any area.

A single blind can span upto 5m wide x 4m drop. Wider openings

can be spanned using multiple blinds which when retracted leave the opening free of any posts or framework for uninterrupted views.

An optional link panel with a Velcro attachment can also be used to close the gaps between the blinds.

Shade Blinds no hoods

Shade Blinds With Standard Hood

Clear PVC Blinds no hoods with Link Panels

The Crank roller café blind can be mounted under an existing structure without using a pelmet hood where it is protected from the elements. When mounting on the outside of the structure then a cover is required to protect to fabric from the

elements when not in use. Either a standard open hood in Colorbond can be added, or if a more aesthetic look is required, then a fully enclosed powder coated aluminium headbox can be used.
