Vibrant, enduring colours

Dickson® fabrics boast an exceptional level of durability, thanks to their use of Sunacryl solution-dyed acrylic fibres. Developed by the Dickson® R&D team, this premium fibre is uniquely crafted by integrating colour pigments directly during the manufacturing process—ensuring that the colour penetrates the entire fibre rather than being applied afterward. This advanced technique results in fabrics that not only resist fading under harsh UV rays but also withstand the toughest weather conditions. Even after prolonged exposure to the sun, Dickson® fabrics maintain their vibrant, rich colours, offering lasting beauty for years to come.

Technical Specifications

- Composition: 100% solution-dyed SUNACRYL acrylic
- Finish: CLEANGUARD® Special dirt-resistant and water resistant treatment
- Width: 120cm
- Weight: 290gsm
- Thickness: 0.64mm
- Schmerber (Water Column): >370mm
- Spray Test: 5/5
- Colour Fastness UV outdoor: 4-5/5
- Warranty: 10-year limited
- Made in: France

Effortless Care and Cleaning

Thanks to CLEANGUARD®, a cutting-edge anti-dirt and waterproof treatment, keeping your awning looking pristine has never been easier. Simply brush off any loose dirt with a soft brush, then rinse with a hose. For a deeper clean, wash with mild soap in lukewarm water (37°C), then rinse thoroughly to remove any residue. Avoid detergents to protect the fabric. Finally, let it air dry—no fuss, just lasting cleanliness and protection.
